

# The Sea-Trek Story:

BRINGING THE WORLD'S FINEST SEAFOODS TO YOU.

Sea-Trek Enterprises, Inc. is a leading marketer of several of the most recognized products in the U.S. seafood industry. Since our founding in 1985, retailers, distributors and foodservice operators nationwide have trusted Sea-Trek brand products for exceptional quality and consistent supply.

Sea-Trek's primary product lines are scallops and snow crab, which are offered in a range of product variations and pack sizes. We offer a line of branded products and also pack private labels. We also offer calamari, packed in our Sea-Trek Gold label, and other species, including: cod, haddock, flounder, coldwater shrimp, lobster products, and imitation crab meat.

What separates Sea-Trek from others in the seafood business is our expertise in procurement. Because Sea-Trek is a leading name in several key seafood categories, we choose to work only with processors and packers who share our commitment to quality. From our home in the Northeast to locations around the globe, we closely supervise all aspects of production to ensure Sea-Trek's quality standards are upheld.

# Scallop Production:

## THE KEY TO SEA-TREK'S COMPETITIVE ADVANTAGE.

Sea-Trek plays a significant role in the scallop industry. Each year we produce and sell several million pounds of scallops, which have been custom-packed to meet individual needs of our customers.

One reason for our success in the scallop business can be attributed to the strategic partnership we have maintained with Eastern Fisheries of New Bedford, Massachusetts, the country's single largest scallop producer. Through an exclusive, long-term agreement, we have access to a consistent supply of the highest quality scallops. These scallops are sourced from Eastern's own fleet of scallop vessels. As a leading importer, we have established a global network from which to satisfy our ever growing need for scallops. In addition to New Bedford, we source sea and bay scallops from Canada, Japan, China, Peru, Chile, Russia and Vietnam.

Sea-Trek's processing capabilities are second to none, with Eastern Fisheries playing an important role. Eastern's facility features the most advanced plate freezing and individually quick freezing equipment available. All production personnel are fully trained in the safe handling of scallops, ensuring that HACCP guidelines are followed and, when required, Grade A specifications are met. On-site USDC inspections are conducted routinely. Additionally, an on-site cold storage capacity of more than one million pounds allows Sea-Trek to meet large volume orders quickly.

We pack product under the Sea-Trek Gold brand name and also in private labels for leading foodservice, distributor and retail companies. Additionally, we have contract packing agreements with a number of other seafood marketing companies.

# Crab Production:

BRINGING YOU THE BEST CANADA HAS TO OFFER.

The Sea-Trek name is well-known and highly regarded among buyers of Canadian Snow Crab from the North Atlantic. We have been a major supplier of Canadian Snow Crab as well as other crab products since 1985. We market many brand names including Sea-Trek Gold, Seafreez, Cape Cod and Ocean Leader.

Through a strategic alliance with the Barry Group of Newfoundland, Canada, Sea-Trek has purchasing rights to a significant volume of the snow crab produced in Eastern Canada. The Barry Group is one of the largest catchers and processors of snow crab, thus allowing Sea-Trek to offer highly competitive pricing. We closely monitor all phases of production to ensure each order will meet the specifications of our customers in the United States.

Sea-Trek Snow Crab is offered in all of the most popular product forms including sections, cocktail claws and meat forms such as leg/body and salad.

In addition to Canadian Snow Crab, Sea-Trek also markets several other crab products, including jonah, red and rock, and imitation crab. We maintain close relationships with packers of these products throughout the world.

ENTERPRISES INC

# Fish, Calamari & Other Seafoods:

THE SEA-TREK NAME IS YOUR ASSURANCE OF QUALITY.

In addition to scallops and crab, Sea-Trek is also a leading supplier of a variety of other seafood products, including calamari, cod, haddock, flounder, and sole. In keeping with our philosophy of strategic partnerships and alliances, we only work in close relationships with packers and processors who share our quality standards.

For example, Sea-Trek Gold brand calamari is packed in Point Judith, Rhode Island, not far from our offices, in a carefully controlled environment for optimal quality. We also work closely with processors in Canada, Iceland and Norway to provide our customers with premium quality groundfish. Each of the packers with whom Sea-Trek works follows the most advanced processing technology and is fully-compliant with all of the most recent HACCP requirements.

The bottom line is: Sea-Trek's industry knowledge and hands-on experience in sourcing and production is your assurance that the many seafoods we offer represent excellent quality and value for you and your customers.

# Scallops from Sea-Trek:

THE INDUSTRY'S BEST-KNOWN BRAND.

- Offer your customers the scallops that are known nationwide for excellent quality: Sea-Trek Gold. For more than 20 years, Sea-Trek Gold has been the brand of choice among discriminating foodservice operators and retailers.
- Sea-Trek offers premium quality all-natural sea and bay scallops as well as more economical processed product.
- Direct vessel relationships and boat unloading gives Sea-Trek a quality advantage as we have a more diverse choice of raw materials.
- The vast majority of our scallops are from George's Bank and the surrounding North Atlantic; scallops are also sourced world wide to ensure continuous supply and exceptional value for our customers.

# Working with Sea-Trek:

## THE BEGINNING OF A LONG-TERM RELATIONSHIP.

At Sea-Trek, we are interested in the same things you are: long-term relationships with our customers, based on hard-work, integrity and a commitment to quality products. Unlike most companies in the seafood industry, we are not organized into "territories" or "customer-segments;" our people work together to satisfy each and every account.

Most of our customers have been purchasing seafoods from Sea-Trek for more than ten years. The longevity of our relationships is the best indication that we are delivering on our promise to provide the highest quality seafoods at the greatest value on the market.
